PART.01 OUR FACTORY

BonGrass, found in 2010, is the fastest growing artificial grass manufacturer of premium artificial grass that mimics the look, feel, and performance of natural turf. Specializing in producing quality synthetic grass for decorative as well as sports purposes, with concentration on quality, We are dedicated to offering outstanding service and ensuring both residential and commercial clients are well-informed when selecting artificial grass solutions.

Since the establishment, BonGrass has been continuously developing into a leading artificial grass enterprise in China with our top R&D team. The introduction of advanced tufting machines and finishing equipment can produce artificial turf of various specifications, which is more suitable for different levels of customer needs to meet the needs of the global market.

Our factory-workshop

Main Processing Steps

Extrusion

Extrusion is the foundational process for producing the fibers used in artificial grass. In very simple terms, high-quality raw polymer pellets are mixed with color and UV additives and then transformed into either flat tape or individual fibers.

Twisting

The extruded fibers undergo twisting, enhancing their strength and resilience. They are then wound onto spools to prepare for the tufting process, ensuring the fibers maintain their texture and durability in the final product.

Tufting

Here the twisted fibers are stitched into a backing cloth, forming the surface layer of the turf. Then the fibers are cut to create individual tufts of artificial grass, enhancing the turf's natural appearance and performance.

Coating

The final step involves applying a durable backing to secure the fibers in place. This backing provides stability and support, enabling the turf to withstand various weather conditions and heavy usage in professional sports settings.

PART.02

PRODUCT REFERENCE

SPORT GRASS

Product Specification:
Model : FIFA DM400 (D-shape blades)
Pile Height : 50-52mm
Dtex:13200
Stitches:160s/m \pm 3%
Gauge:5/8in
Density:10080
Color:filed green +apple green
Backing:green PP+Leno

Product Specifications:
Model : LANCE (D-shape blades)
Pile Height : 25mm
Stitches/10cm :16
Gauge:3/8in
Density:16800
Backing:green PP+SBR

Product Specifications:
Model : LOTUS 603 (S-shape blades)
Pile Height : 50mm
Dtex:10000
Stitches/10cm :16
Gauge:5/8in
Density:10500
Backing:green PP+net

Product Specifications:
Model : DELUX 96
Pile Height : 12mm
Dtex: 5000
Stitches/10cm :32
Gauge:3/16in
Density:67200
Backing:green PP+NET

Product Specifications:
Model : FLORENCE
Pile Height : 12-15mm
Dtex: 9000
Stitches:190s/m \pm 3%
Gauge:3/16in
Backing:PP+PP
Infill:Silica sand

Product Specifications:
Model : LION (U-shape blade)
Pile Height : 30mm
Stitches/10cm :13
Gauge:3/8in
Density:13650
Backing:green PP+SBR

LANDSCAPE GRASS

Product Specifications:
Model : OLINA (U-shaped blade)
Pile Height : 40mm
Dtex:9000
Gauge:3/8in
Density:16800
Backing:PP+SBR

Product Specifications:
Model : MAVIS (V-shape blade)
Pile Height : 40mm
Dtex: 9000
Stitches/10cm :16
Gauge:3/8in
Density:16800
Backing:green PP+NET

Product Specifications:
Model : WAVES
Pile Height : 30-32mm
Dtex: 10800
Stitches: 160s/m \pm 3%
Gauge:3/8in
Backing:Eco material

Product Specifications:
Model : TURIN
Pile Height : 20-22mm
Stitches: 130s/m \pm 3%
Gauge:3/8in
Backing:PP+SBR

Product Specifications:
Model : CHIC
Pile Height : 40-42mm
Dtex: 7700
Stitches: 280s/m \pm 3%
Gauge:3/8in
Backing:PP+Net

Product Specifications:
Model : GREENE
Pile Height : 44-46mm
Stitches: 120s/m \pm 3%
Gauge:3/8in
Backing:PP+PP&PU

PART.03

A APPLICATIONS

APPLICATIONS / SPORTS

Soccer Turf

BonGrass produces more football fields than any other global artificial grass manufacturer and has the widest choice in available tested systems. In fact, our daily production equals 4 full-size artificial football turf fields. As a FIFA license holder, BonGrass has more than 180 artificial football turf systems tested to FIFA Quality and Quality Pro standards. BonGrass provides solutions for football fields played at every level and all ages. Different football grass is designed for full size fields, training areas and mini-football pitches.

Hockey Turf

BonGrass hockey turf have more fibre per square metre than comparable products, and have been fully tested with hockey specific shock pad systems. This leads to greater stick control, improved foot/surface interaction and a faster game.

Tennis Turf

There are several types of tennis court systems. We know that players have their own favorites. At BonGrass, we offer artificial turf tennis courts for high-quality club use, intense school play and leisurely family time. We offer a range of tennis turf systems in different pace ratings to meet the requirements of tennis players of all levels.

Padel Turf

BonGrass padel turf products have been designed and developed under the test by the independent laboratory IBV, and comply with the standards set by the FEP (FEDERACIÓN ESPAÑOLA DE PÁDEL). Our padel turf is with high wear resistance providing longer warranty. Also we provide both fibrillating and monofilament structure padel turf, which give you both economical and top-end option

APPLICATIONS / LANDSCAPE&PLAYGROUND&PET

LANDSCAPE TURF

Synthetic grass is revolutionizing residential landscaping, offering a wealth of possibilities for various home settings, including front and backyards, rooftop gardens, patios, pool surrounds, pet areas, and children's play zones. It delivers a lush, green look throughout the year with minimal maintenance, eliminating the need for frequent mowing, watering, or fertilizing.

PLAYGROUND TURF

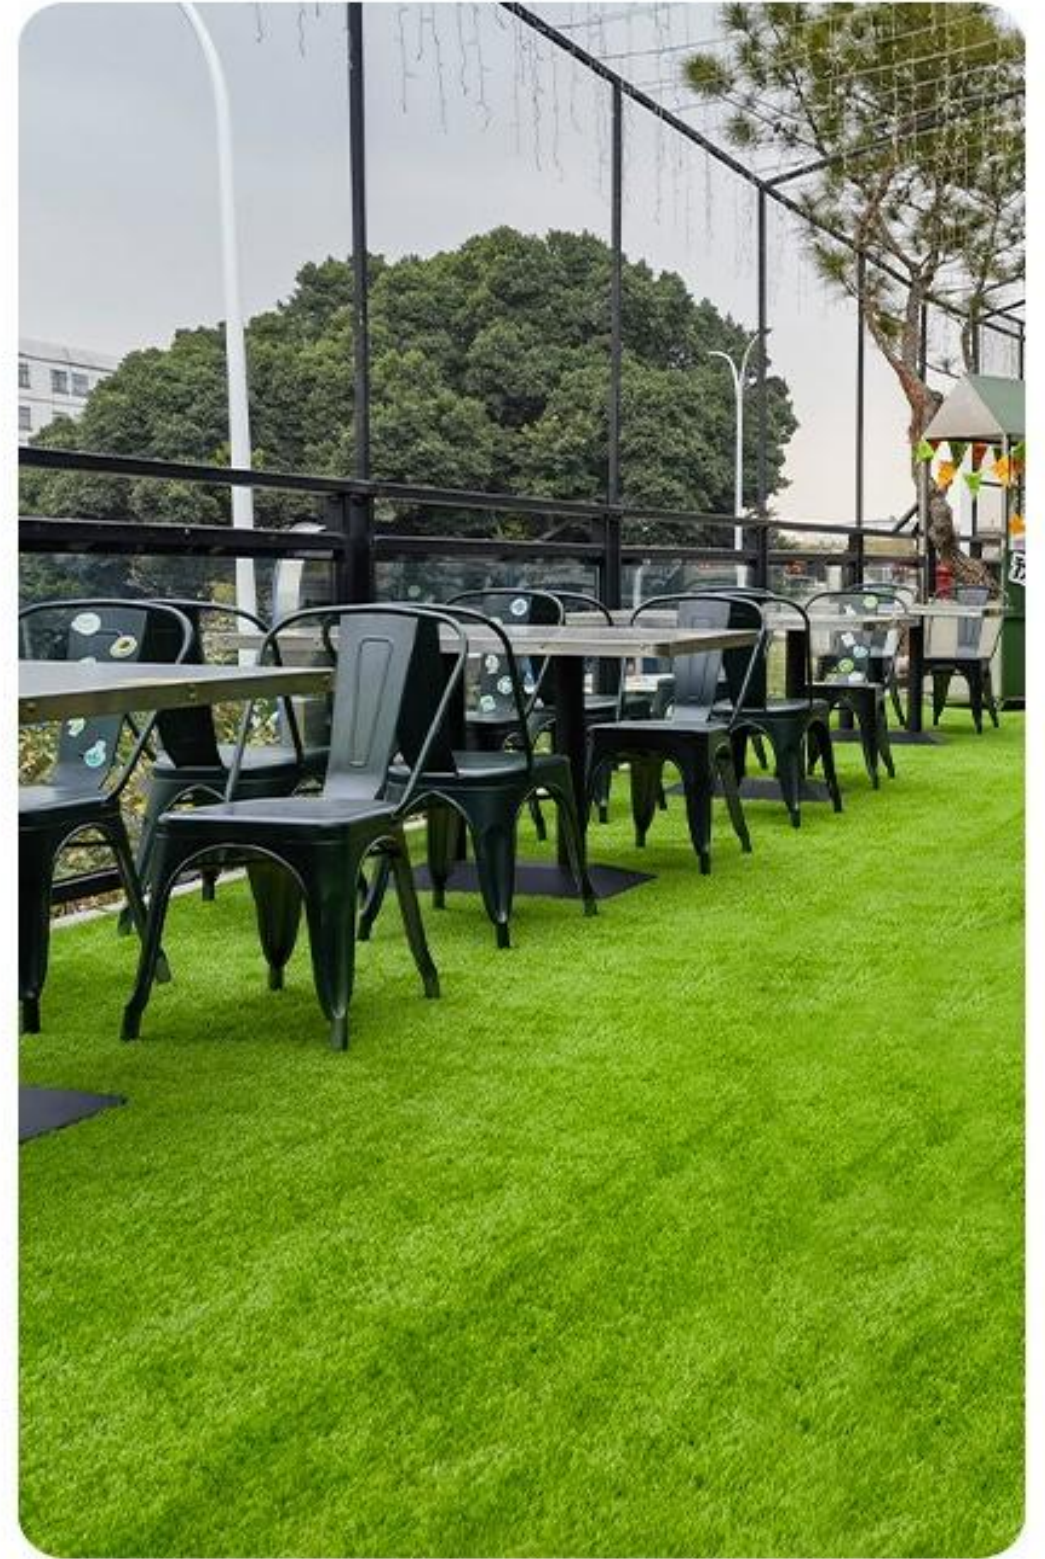

Playground grass provides a soft, clean and safe grass turf surface for play that's mud-free, mess-free, and durable against heavy use. It is able to give you dedicated spaces in your yard for golf, tennis, or other sports, enhancing your home's recreational options.

PET TURF

Synthetic grass for pets provides an ideal solution for pet owners looking to create a clean, durable, and low-maintenance environment for their furry friends. Unlike natural grass, pet turf stays green and fresh year-round, offering a safe and comfortable surface that's resistant to wear and tear. Whether used in backyards, dog runs, parks, or pet care facilities, fake grass helps eliminate muddy paws and unsightly damage while ensuring pets have a soft, pet-friendly surface to enjoy.
